AT CROSSWAYS CAMPS...

Campers will engage their **FAITH** in experiential ways with mentors who facilitate wonder over answers.

Campers will **CARE FOR CREATION** through immersion in the vast outdoors, wooded sanctuaries, and pristine lakes.

Campers will build **COMMUNITY** and practice skills like collaboration, active listening, and problem solving.

Campers will be surrounded in welcoming **HOSPITALITY** where they are loved for who they are.

Campers will experience **DISCOVERY** and develop curiosity as they try new challenges supported by leaders and peers.

CROSSWAYS SITES

Imago Dei Village (Clintonville, WI) cultivates deep relationships and encourages campers to step out of their comfort zone with camper clusters called moses that experience the day's activities together. Campers may experience the climbing wall or canoe trips offsite.

Pine Lake Camp (Waupaca, WI) builds authentic community by balancing cabin group time with mixed age programming where campers have ownership over their schedules. The summer staff pour creativity into customizing each program's unique offerings.

Waypost (Hatley, WI) offers environmental learning through its intersection of faith and creation on a quiet lake in the north woods. Campers are seen and known as group sizes are kept intentionally smaller. Campers will enjoy baking and eating their own Waypost wheat bread and get their hands dirty as they tend the garden.
